

Policy on Coaching Requests

We try our best to honor requests from our coaches who wish to be “paired up” with a fellow coach. We realize there are many good reasons to do so – for example, complementary work schedules, similar coaching styles, etc. However, because we need to make sure every child’s team has an experienced coach, at times we won’t be able to guarantee a request.

Our goal is that every team have at least one experienced coach and one or two assistant coaches, whether experienced or novice. We owe that much to our players.

We also believe our experienced coaches are an asset not just to our players but to our fellow coaches. We each can and should learn from each other. It helps make the transition for our new coaches that much easier.

Coaches who wish to coach together should send the [Intramural Program Director](#) an e-mail at least one month before the season start stating who they wish to coach with. Please also make sure your prospective co-coach is amenable to the request!
