TOPSoccer: "The Outreach Program for Soccer" is designed for school-aged children with physical and/or mental disabilities. The program helps serve the physical and social needs of our community's children who want to participate in fun activities, but who, because of their disabilities, may feel left out of traditional sports programs. This summer season of soccer training and games is taught by caring adult and high school volunteers. Teams are divided based on the age and ability of participants attending on a given day.

We are looking for players AND dedicated peer buddies

Come join in the FUN!
